

Please do not take K-Love from my area, it has such uplifting spiritual meaning to everyone. It is our "Food for Focus". It keeps me focused on what is important, Jesus Christ. I am on the road alot and keep my radio station on K-Love continuously and so does many of my friends at work and on the road as I am. This means so much to so many people in my area. The way things are in this world today, this is one of the few things that keeps Jesus in our lives, outside of church and reading the Bible.
